

Norman Goldstein MD
Editor, Hawaii Medical Journal

HMJ Welcomes William W. Goodhue Jr. MD, FACP as Associate Editor

I am very pleased to announce the appointment of Dr. William W. Goodhue Jr., as Associate Editor of the Hawaii Medical Journal.

Dr. Goodhue is currently First Deputy Medical Examiner of the City and County of Honolulu. He received his M.D. at Cornell and postgraduate training at New York Hospital-Cornell, Columbia-Presbyterian, and Tripler Army medical centers. Now, Dr. Goodhue is Clinical Associate Professor in our medical school. He is Board-Certified by the American Board of Pathology in both Clinical and Anatomic Pathology.

Dr. Bill Goodhue served in the US Army as Pathologist from 1975 to 2001, and retired as a Colonel. He tells me that he has performed more than 300 forensic autopsies just in the two years he has been a medical examiner here. For several years he served at the Dwight D. Eisenhower Army Medical Center at Fort Gordon, Georgia as well as at Tripler Army Medical Center; both duty stations were also my assignments.

He has written numerous books, chapters, manuscripts, and teaching manuals in addition to scientific papers, and he has presented many technical posters.

Bill Goodhue's editorial expertise includes service on the Editorial Board of the Cornell University Medical College Alumni Quarterly, and as Editor for the Graduate School of Medical Sciences of Cornell University. He was a reporter for The Garden Island newspaper on Kauai in summers during high school. Professional memberships include the American Academy of Forensic Sciences, the American Society for Investigative Pathology, the Society for Pediatric Pathology, the Hawaii Society of Pathology, the AMA and the HMA.

Bill has ideas to expand the mission of the Hawaii Medical Journal. This concerns more involvement by neighbor island physicians,

expansion of our cadre of peer reviewers, thereby speeding up the process, adding kama'aina physician profiles, and encouraging articles pertaining to the History of Medicine in Hawaii.

The Editorial Board and I look forward to many years of working with Dr. Bill Goodhue Jr., who can be reached at the Department of the Medical Examiner, (808) 527-6777, fax (808) 524-8797, email: WWGJRMD@aol.com.
